Dear Colleague,

You are kindly invited to participate in [12th International Conference on Composite Science and Technology](https://www.iccst12.com/).

Prospective authors are invited to submit abstracts on topics related to, but not limited to, the following topics:

- Mechanics of composites
- Applications of composites
- NDE and Structural Health Monitoring
- Damage, Fatigue and Fracture
- Smart materials & structures
- Impact and dynamic response
- Repair and self-healing
- Nano composites
- Metal-matrix composites
- Composite manufacturing
- Multi-scale Modelling
- Green Composites
- Hybrid composites
- Textile Composites

The main conference theme is "2020 - Scientific and Industrial Challenges". A number of leading researchers in the field of Composite Materials will be invited to deliver keynote lectures with confirmed industrial speakers from the aerospace (Airbus, Boeing and Leonardo), automotive and civil sector.

Abstracts should be submitted online and will be reviewed by an international technical committee. Receipt of abstract submission will be confirmed by e-mail.

Full instructions and the abstract template are available at <https://www.iccst12.com/>

Papers presented at the conference will be published in the conference proceedings. Selected papers will be published in special issues of the journals "Applied Composite Materials", "Composite Science and Technology", "NDT & E International".

Proposals for half-day sessions are solicited in areas related to the scope of the conference.

IMPORTANT DATES

Submission of session proposal	10 January	2018
Deadline for Abstracts	31 January	2019
Notification of Acceptance	15 February	2019
Early Registration before	28 February	2019
Submission of manuscripts (not compulsory)	15 April	2019
